- Production Capacity in China

# 公司簡介

設立日期	1946年5月	2015年第四季產能		
總公司	台北 台灣	(百萬噸)	台灣	大陸
上市時間	1962年2月	熟料產能	9.5	48.5
流通在外股數	3,692.2 百萬股	相當於水泥產能	10.4	58.6
收盤價(新台幣/股)	35.0	研磨產能	-	6.7
	新台幣1,292億元	水泥總產能	10.4	65.3
市值 (2016年4月07日)	美金41.15億元 (USD/NTD=31.40)			75.7
員工數 (2016年3月31日)	台灣: 842 大陸: 8,599

# 報告內容

- Company Snapshot
- Key catalysts
- 2Q/2016 Financial Results
- Production Capacity in China

# 2016 水泥行業主要亮點

## 需求面

Infrastructure for 1H, while residential property for 2H

## 供給面

325 product phase out plan becomes more concrete

## 成本面

Even with coal price rising in 1H16, our procurement advantage remains

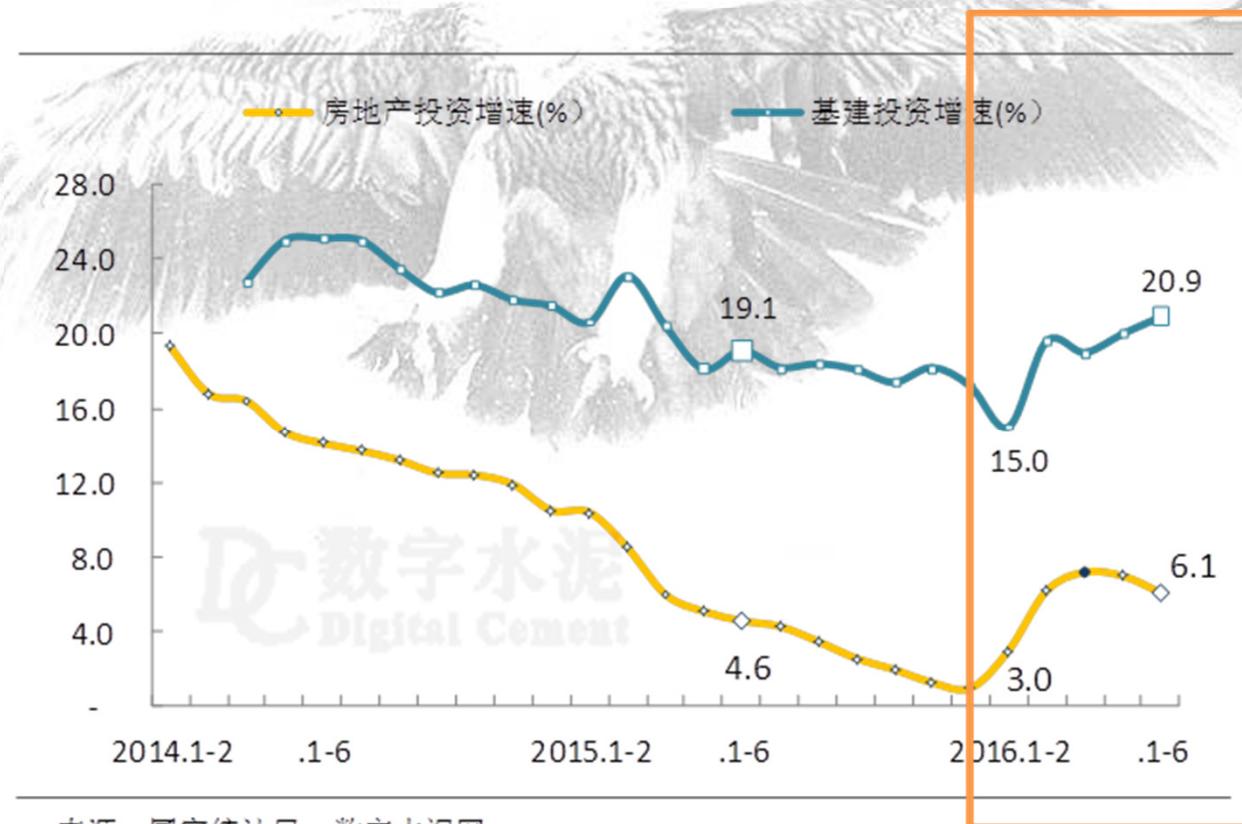

## 台灣

Anti-dumping clause expects to remain

# 強勁基礎建設支撑上半年需求

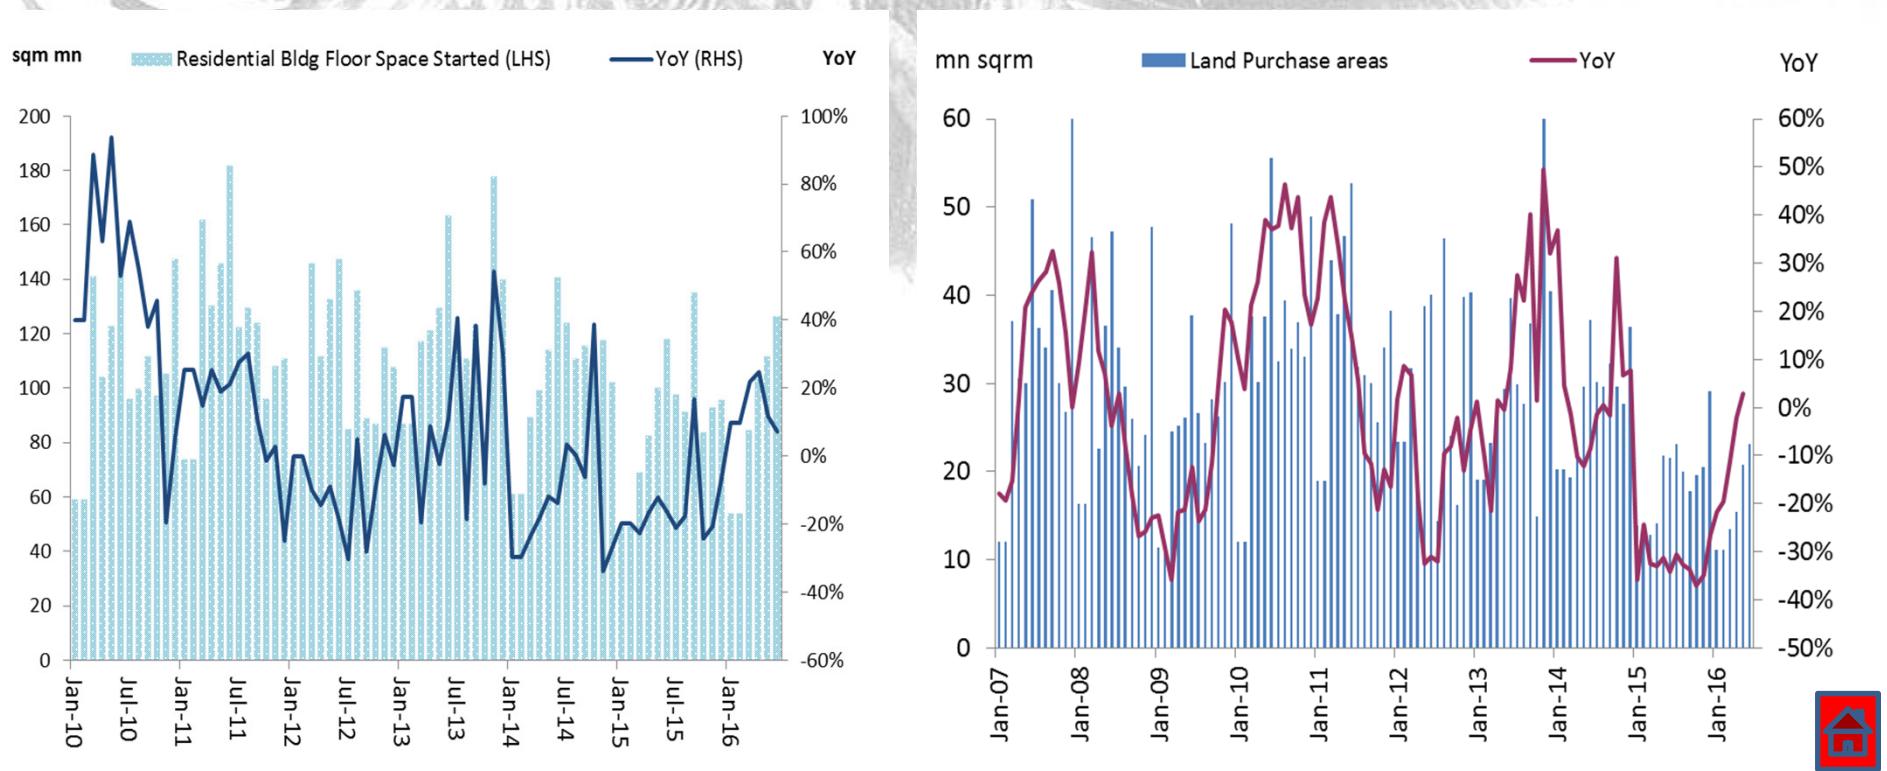

- Among this, mining investment of RMB422.5 bn is 19.7% yoy decline, while infrastructure FAI of RMB 4,908.5 bn is 20.9% yoy increase. We believe this means potential green field capacity expansion is close to the end, and demand/supply situation is moving toward a better balance.

来源：国家统计局、数字水泥网

# 住宅不動產也許是下半年需求的催化因子

- According to NBS, 1H2016 residential building floor space started increased 13.9% yoy to 534 mn sqm.
- Meanwhile, monthly land purchase areas also stopped its 16 months decline and started to show yoy increase since March 2016.

# 2016台泥主要亮點

## 黃金交叉

GPT and Sales volume both have exceeded last year's level

## 碳捕捉

Green business opportunities

## 善用科技

## 改善管理效能

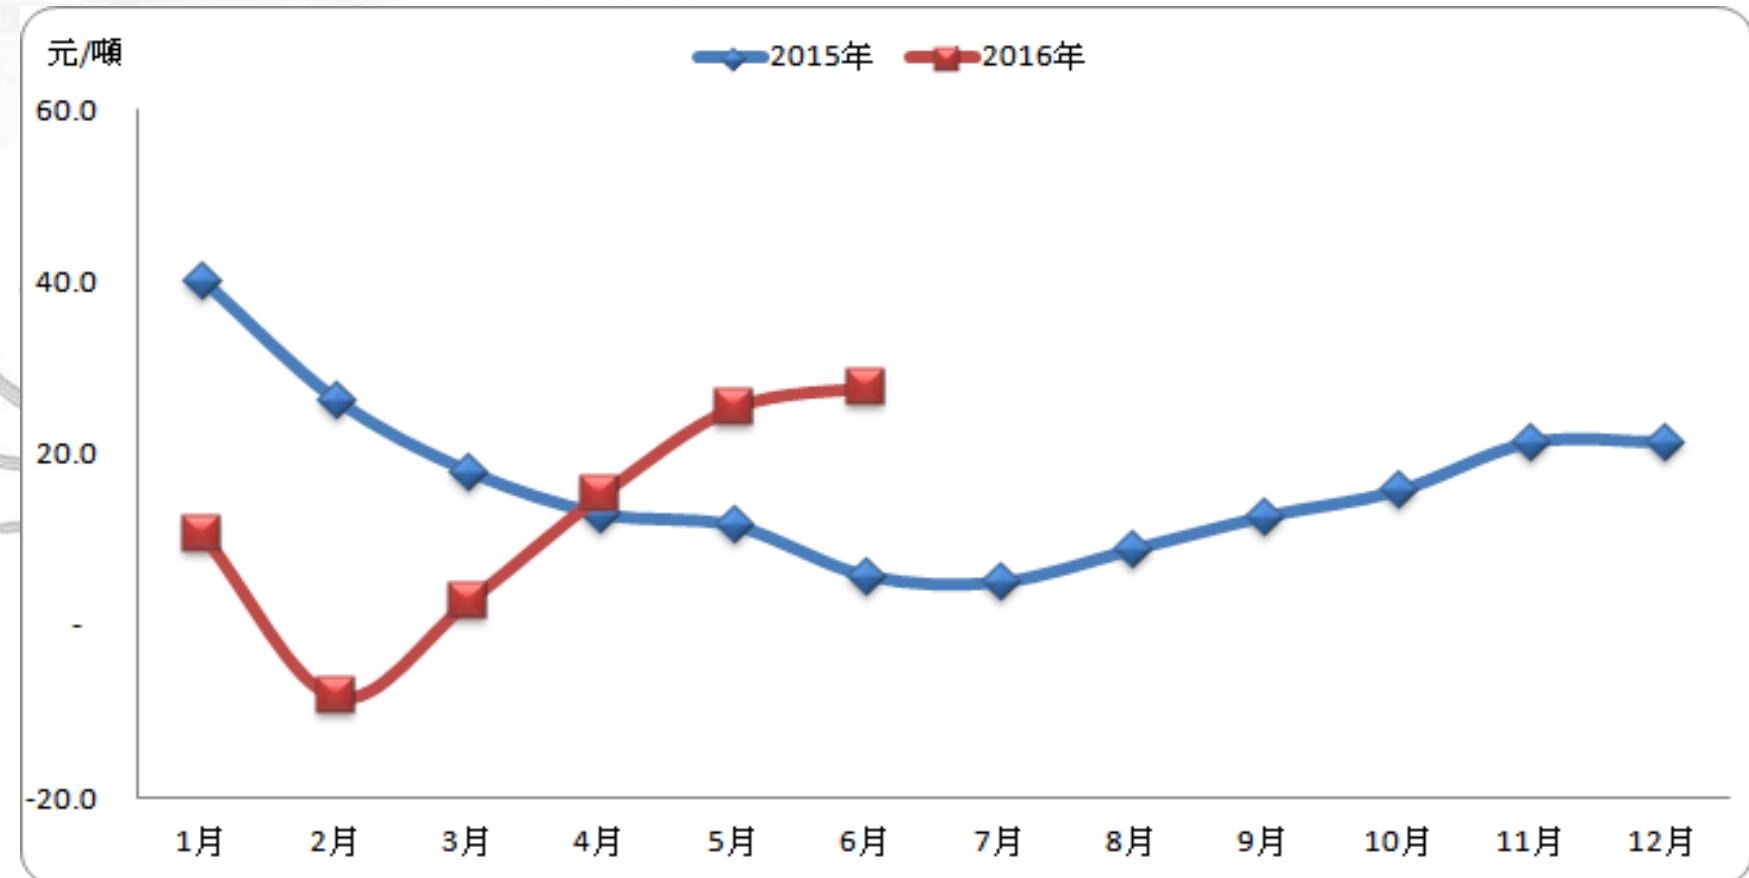

## 城市垃圾協同處理

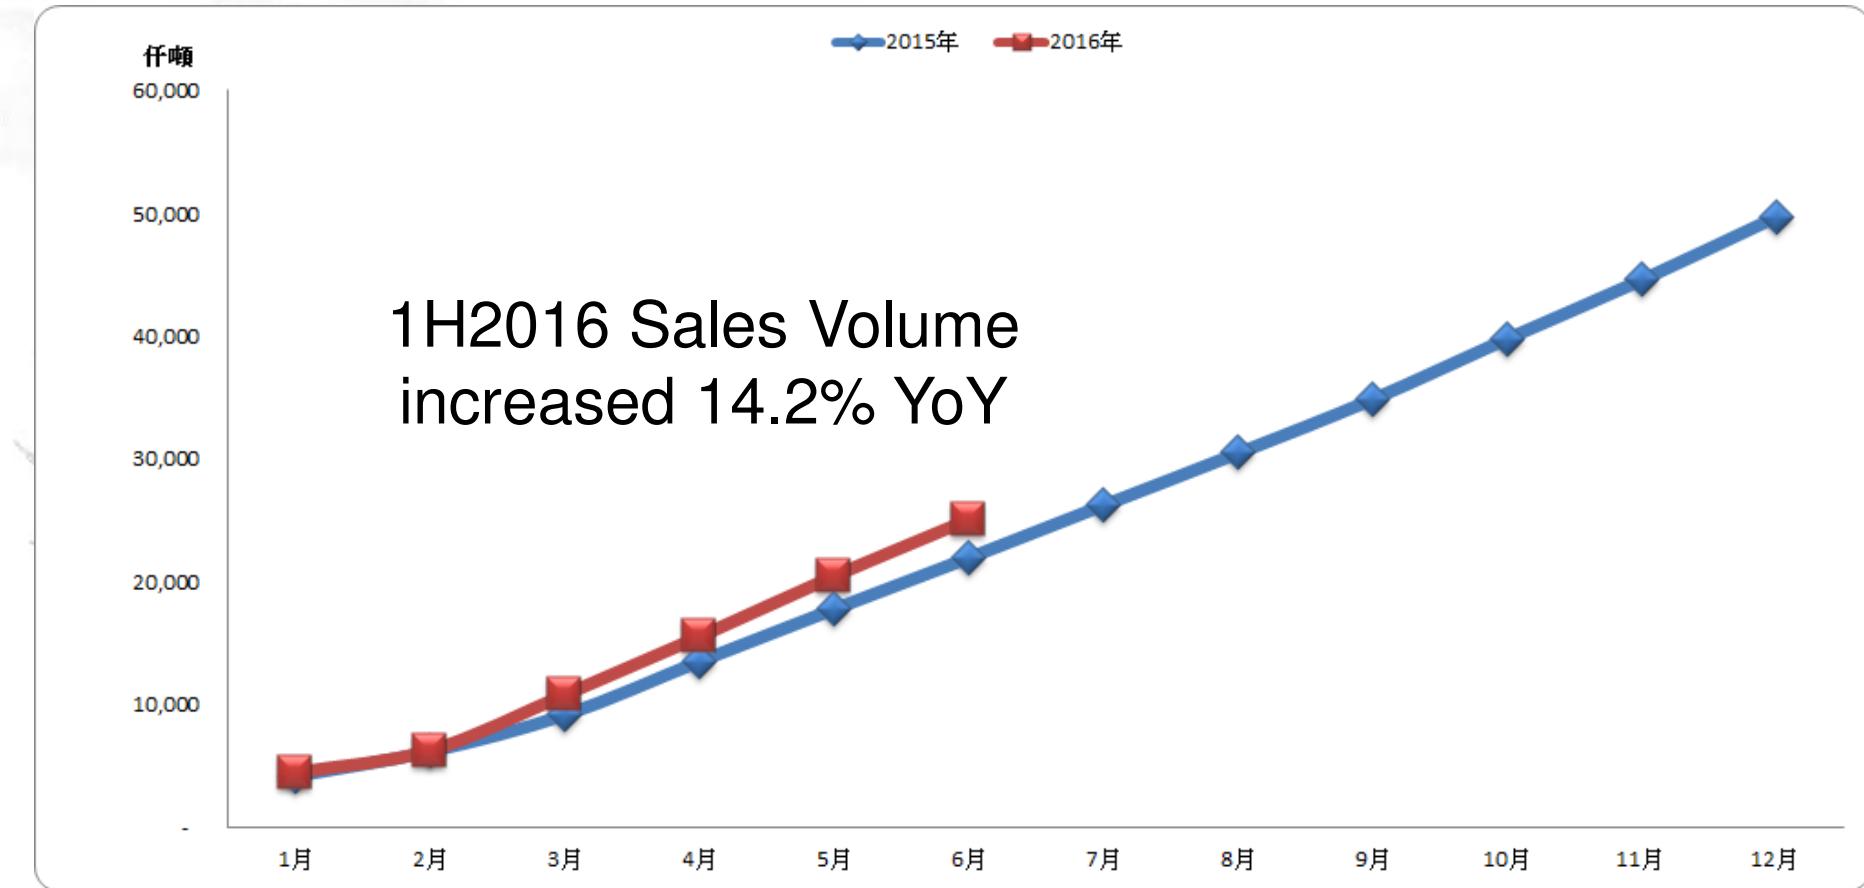

This is not only a value added service, but also a future trend.

# Golden Cross-GPT

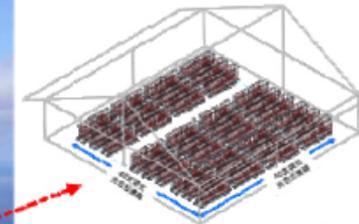

# Golden Cross-Sales Volume

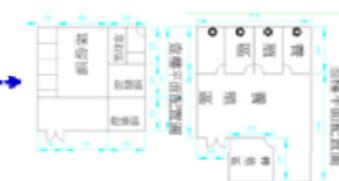

# 綠色商機

- TCC worked with ITRI to not only further reduce the carbon emission through calcium looping system, but also use the captured CO<sub>2</sub> to develop chlorella, especially high value added ones, i.e. **haematococcus pluvialis** (雨生紅球藻)
- Haematococcus pluvialis is a freshwater species, which is well known for its high content of the strong antioxidant **astaxanthin** (蝦紅素), which is important in aquaculture, and cosmetics. In April 2009, the United States FDA approved astaxanthin as an additive for fish feed as a component of a stabilized color additive mixture.
- The primary use of astaxanthin for humans is as a food supplement. Research shows that, due to astaxanthin's potent antioxidant activity, it may be beneficial in cardiovascular, immune, inflammatory and neurodegenerative diseases. In addition to the compound's powerful anti-inflammatory and anti-oxidative capabilities, evidence indicates that astaxanthin has the potential to modulate aging.
- TCC is working with ITRI for potential business opportunities to commercialize this research, while total investment is small (i.e. NTD100-200mn), the potential benefit could be significant.

# 綠色商機

# 創新的APP及大數據運用以改善管理效能

- For example, our GPS on each ship is not only help to track the routes, but also can apply to a flexible shipping tariff, in order to increase the turnover.
- Our hourly sales volume tracking system in each plant can also help to better gauge the market D/S situation, so as to adjust the price mechanism.

## 更多附加價值的服務 - 城市垃圾協同處理

- Taiwan Cement's Anshun plant is ramping up our first waste management project in China by 2015 year-end, to work with local government to help handle the household refuse.
- Not only this project itself is a positive IRR project, but also we believe this would lead to the next step for all the cement plants – incinerators.
- Our experience in Taiwan - Suao plant has 10% of its earnings contributed from handling the industrial wastes. We see this would also be the trend in China in the next decade.

# 中國大陸地區產能目標

China's  
Top tier  
players

The diagram illustrates the components of China's cement capacity target. On the left, a large orange arrow points upwards, labeled "China's Top tier players". To its right are three stacked boxes: a grey box at the top labeled "target capacity: 100 million tons", a blue box in the middle labeled "Green field project Merge & Acquisition", and a red box at the bottom labeled "65.3 mm tons". A red plus sign is positioned between the middle and bottom boxes. Below the bottom box, the text "Existing capacity in operation" is written.
